Achieving an Equitable Divorce Settlement More Quickly

The majority of Divorcing couples go through tremendous emotional turmoil which often clouds their thinking when it comes to financial matters—both present and in the future.

As Certified Divorce Financial Analysts (CDFA's), our mission is to help provide couples with a clear and complete financial picture so that an accurate equitable settlement can be achieved more quickly. We will review your current situation and

- Prepare cash flow analysis, lifestyle analysis in preparation of the Net Worth Statement
- Prepare Maintenance and Child Support Analysis
- Estimate Immediate and Long-Term Needs for your Budget
- Project your Retirement and Insurance Needs
- Estimate future College and Educational Costs
- Estimate Career Training Costs

Projecting the long-term viability of a proposed after-tax settlement is perhaps the most important component of our analysis. By preparing spreadsheets and charts, we can provide you with a sense of how you will survive financially.

Questions such as whether or not you sell your home, take or forfeit your rights to a pension, and what kind of lifestyle you'll be able to afford are much easier to answer with the help of a CDFA who works with you to determine YOUR financial needs.

Additionally, we offer post divorce financial planning and many other services.
